

House captains

Last week our Year 6's put themselves forward for nomination as either House Captain or Vice Captain for the remainder of this academic year. The children each prepared a statement on why they should be chosen and the rest of Key Stage 2 voted for their favourite. The House Captains are the front row of the photo, with the Vice Captains behind.

Science in Class 3

Ella Eyre sang on 2015's hit single, Gravity, "Gravity won't hold us down" – well she obviously needed to attend Mr Rance's science lessons in Class 3, where she would be learning about the gravitational pull towards the centre of the Earth!

Class 3 used Newton Meters last week to measure the weight of objects in Newtons. They will be covering friction, air and water resistance during this term.

Stars of the Week

Last week's stars were:

Brass Lessons

Charlotte Allen came in last week to demonstrate playing a cornet and a trumpet to the children in Key Stage 2. Charlotte will be holding 15 minute taster sessions this week with those children who expressed an interest and then they can decide if they want to attend lessons from the following week. It is great to add the brass family of instruments to the tuition available. If you would like to know more about Charlotte's lessons or our piano, guitar or string tuition, then please contact the school office.
