

Year 6 secondary school applications

The Essex admissions team have asked schools to remind parents of Year 6 pupils that their application form for secondary school places for September 2021 has to be completed by **31st October 2020**. Any applications after this date will be considered 'late' and therefore go to the back of queue when awarding places.

Applications can be made via the Essex website www.essex.gov.uk/admissions

If you don't live in Essex, you must apply through the local authority that your council tax is payable to, e.g. Cambridgeshire or Suffolk. Their deadline is also 31st October 2020.

Class 3 science

Class 3 have been continuing their investigations into different types of forces within science.

Their most recent experiment was related to air resistance. They were tasked with designing a parachute that would take the longest time to fall to the ground. Each child was able to design up to 3 different parachutes, so they could alter either the size or shape and see what effect it had on the results.

Thankfully we used only paperclips as the occupant of the parachute, as a living being might have met an untimely end had they been strapped into some of the designs!
