

## Bikeability

Last week, our Year 6's, together with a few Year 5's, undertook their Bikeability training. Parents might remember this being known as Cycling Proficiency when they were at school.

Bikeability aims to teach the children how to ride, signal and manoeuvre their bicycle safely and confidently on the public roads. Over 2 days they initially learnt within our school grounds before progressing to the local roads.

The children undergo an assessment as part of their training and I am please to report that all the children that took part did really well and received a certificate and badge.

## Fund raising

The PTA want to say a huge thank you to all our families who helped raise a fantastic **£558.62** with the Smarties tubes recently.

## Stars of the Week

The Stars of the Week last time were:

## Reading

Since returning from the national lockdown we have targeted some pupils for additional reading support. This has shown that regular reading has significantly increased these children's reading ability, but unfortunately we are unable to offer this level of support to all children. Therefore, I want to encourage parents to keep regularly listening to your child as this really makes a positive difference and their ability to read impacts their learning across the curriculum.

## Dates for your diary

Textile collection day	17/6/21
Last day of term	21/7/21
