

## Bug Club

When the first national Covid lockdown took place, we decided to invest in the online platform called Bug Club.

Bug Club offers a selection of reading books linked to your child's reading level, which they can progress through, answering a few questions per book, to see if they have understood it.

This was particularly useful at the time, as parents were unable to exchange physical books in school.

However, I have noticed that in recent months the vast majority of families are not using Bug Club at all. This is such a shame, as these online books compliment the physical books that your children take home from school.

I am therefore appealing to parents to use this good resource, particularly as we have paid for it, and I will reevaluate whether we shall continue to resubscribe to it in the future, when I look at how many children are using it going forwards.

Finally, I will remind you that the login credentials are them same as those your child uses for Mathematics. Therefore, if you have misplaced these, please request an email to be sent to you with the username and password for your child/children and I will send it to you ASAP.

## Sports Day reminder

At the time of writing, the weather for Tuesday is predicted to remain dry. Therefore, Sports Day will go ahead this week. Please remember that parents should not arrive earlier than 1:30 pm due to the children's lunch hour still taking place. We aim to start the afternoon events at 1:45 pm.

Every child should have a water bottle and sun hat, and any sun cream should be applied before school.

## Stars of the Week

The Stars of the Week for the last time were:

## Dates for your diary

Sports Day (1:45 pm)	28/6/22
Sports Day (reserve)	5/7/22
